The HTML version provides enhanced accessibility features including keyboard navigation, screen reader support, responsive design, dark mode support, and high contrast options.

Request

Request: DATA-#### (a random number)
Requested by: Who is asking, such as a manager at your company
Data: Which data set or database

Background

A few sentences on the situation at the company, and why this request matters.

Learning Outcomes

By the end of this lab, you will be able to:

- Outcome 1, starting with a measurable verb such as write, create, evaluate, or explain
- Outcome 2 (no more than 4 outcomes)

Lab Instructions

Books are my example data only. Students use their own data set from the Introduction to Data lab.

Screenshots

Several parts of this lab ask for a screenshot. Each screenshot should have your name, term, and year. One of the easiest ways to do that is make a text document with your name and term/year on your computer and save it to use all term. Any screenshots that don't include this information won't be counted.

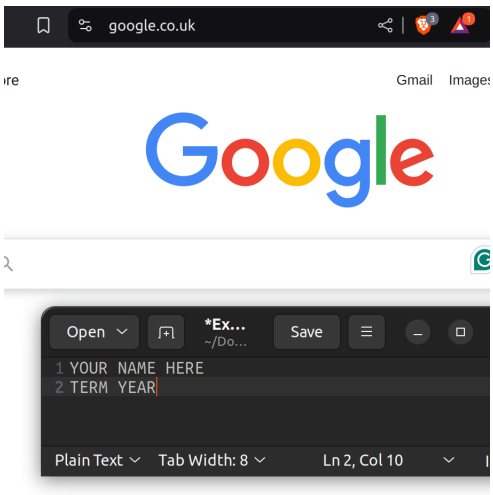

Figure 1: This is an image of what each of your screenshots should look like

Part 1: Title

1. 1

2. 2
3. 3

Acceptance Criteria

This request is done when:

- Something you can check is done
- Another one

Deliverables

One file that includes:

- Part 1: ...

Audience: who will read this, and what they already know.

Resources

References, a video, a PowerPoint and some notes are available at my website
